ATTN: Quality/Purchasing Manager
Subject: MA4AGSW2 datasheet specification update
PCN #: PCN-01370-REVISED

The goal of MACOM is to continually deliver high quality products and services that meet our customers' needs. We strive to offer products that are industry leading in terms of performance, delivery, quality, and value.

In accordance with MACOM's customer product change policy, this communication is to inform you that MACOM is making a specification update to the part number listed below. You are receiving this notification because you have purchased this product in the past two years.

MA4AGSW2 – SP2T Reflective AlGaAs Switch

Through volume measurement data taken over time it has been determined that the recommended operational bias current be +/- 10 mA for optimal performance. The absolute maximum current remains +/- 25mA. The compatible driver, MADR-011022 is also being added to the datasheet. These changes are reflected in the V8 revision of the data sheet.

Please contact your local sales representative if you have any questions or require additional information.

Sincerely,

Patrick O'Brien
Product Manager
